Email Draft

Subject	Innovation funding advice for Belfast SME developing AI evidence automation
----------------	---

Hello,

I am Gary Leckey, director of R&A Consulting and Brokerage Services Ltd, a Belfast-based SME developing Aureon, a local-first software and evidence automation platform.

We are looking for guidance on the best funding route for our R&D work. The current candidate project packages are HNC Accountant, Azyra Warehouse Automation, and Aureon Operator OS.

We would like advice on whether Invest NI Grant for R&D, Innovate UK, EIC Accelerator, Eureka/Eurostars, or another route is the right first path. We are also looking for partner guidance and bid-review support.

Could we arrange an initial discussion on funding fit, eligibility, and the evidence pack you would need from us?

Regards,

Gary Leckey
Director, R&A Consulting and Brokerage Services Ltd

Core Ask

- Funding-route fit across Invest NI R&D, Innovate UK, Horizon Europe, EIC Accelerator, and Eureka/Eurostars.
- Partner guidance for university or international consortia.
- Bid review for the first serious application.
- Help selecting the most fundable first project package.

Candidate Project Packages

- HNC Accountant - UK accounting, VAT, MTD, tax, and audit automation for SMEs.
- Azyra Warehouse Automation - evidence-led warehouse stock/location automation with review gates.
- Aureon Operator OS - local-first AI workflow and evidence routing for high-risk operations.

Questions For Advisor

- Which package is strongest for Invest NI Grant for R&D?
- What compliance, accounts, PAYE, staffing, and match-funding evidence is needed before submission?
- Can Invest NI support partner identification for Eurostars, EIC, Horizon, or UK-Switzerland CR&D?
- Are project-definition or bid-preparation supports available before a full competitive application?
