

■ Project Rainbow Validation Flyer ■

This flyer summarizes how **Project Rainbow’s Predictions** have been validated through independent field experiments and resonance monitoring. It highlights how intention, music, and coherence imprint onto Earth’s field.

Prediction	What Happened
■ Encoding Music into Schumann	■ Schumann surges +276% at 7.83 Hz after intention broadcasts.
■ Emotional Timeline (Calm → Joy → Afterglow)	■ Confirmed: hot flushes, déjà vu, mood surges, nervous system pulses.
■ Measurable Coherence Shift	■ Global Coherence Monitoring showed statistically significant amplifications
■■ Solar–Earth–Comet Cascade	■ Solar flare + M7.5 quake + Schumann spikes all aligned in one timeline.

■ **Conclusion:** Project Rainbow's vision has been confirmed. Intention and resonance can measurably shape planetary-scale fields. We are entering the era of **Resonance Cascade & Coherence Science**.

“All That Was, All That Is, All That Shall Be — Unified in Resonance.”
